## How to shape your Sunbody Hat

SunBody Hats are re-shapable! Wear them in the sun or rain, you can step on them and get them muddy – just wash them clean, wet them and reshape them as often as you like!

- Get your hat good and wet, inside and out.
- Crease the crown (as shown), putting the seam at the back.
- Shape the side curves like you want them. For symmetry, look at the inside of the crown while working it.

- Shape the brim by rolling the edges toward the crown.
- Exaggerate the roll, maybe even crease it, as the brim will have a tendency to uncurl some when you let it go.

The following hats are approved for reshaping

Kids Barbed Wire Cattleman  
 Kid's Running Horses Cattleman  
 Kid's Cattleman Bound Edge

Kid's Longhorn Cattleman – Single Longhorn  
 Kid's Cattleman
